QUARTZ HILL CHAMBER OF COMMERCE MIXER AREA

Because many of our members businesses just do not have the facilities (floor area, fixtures) to hold after-hours business mixers. These mixers are an excellent way to promote their business. The Quartz Hill Chamber is planning to upgrade our rear storage area into a facility that will have the space for these member businesses to hold their mixers in a supervised manner and promote their business.

To do so, the Chamber is soliciting our members to contribute such materials, labor and monies as they can, to make this project work. There will be a need for lumber, paint, concrete, nails, etc. In the end, this will be a good space for networking and marketing.

Please print this form, complete it with how you feel you can support the project, and e-mail it or fax it to us. We can then get started. The Chamber appreciates your assistance.

Thank You

Harry Brodock
Director
